Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

In the mystical realm of programming, there exists a magical incantation to reveal hidden words.

Elara, the skilled enchantress, wishes to summon a word using her spell and then reverse its characters to uncover its enchanted reflection.

Write a program that uses the predefined functional interface `Supplier<String>` and a lambda expression to:

Supply (generate) a string, and

Display its reversed form.

Input Format

No input is required from the user.

The string must be supplied internally using a Supplier<String>.

Output Format

Print the reversed version of the supplied string.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: Wizard!!

Output: !!draziW

Answer

```
import java.util.function.Supplier;
import java.util.*;

public class Main{
    public static void main(String[] args){
        Scanner scanner=new Scanner(System.in);
        String input=scanner.nextLine();

        Supplier<String> supplied = () -> input;

        String original=supplied.get(); //gets string from supplier
        String reversed=new StringBuilder(original).reverse().toString();

        System.out.println(reversed);
    }
}
```

Status : Correct
